ADVANCED ENDODONTICS HANDS ON COURSE

AHC

After sell-out courses, join Drs Mehdi Rahimi, Jonathan Moore and Mark Johnstone as they brings this Comprehensive 2 Day Hands on Intensive to Brisbane to boost your Endodontic skills.

TOPICS COVERED:

- Endodontic access (includes anatomy) and negotiation
- Root canal length determination and how to optimise the accuracy of the apex locator
- Microbial control techniques - Chemomechanical disinfection of the root canal system
- Root canal preparation using various rotary NiTi instruments with a focus on protaper-next files and TF Adaptive files
- Current concepts and trends in Obturation - focus is on modified warm vertical compaction techniques
- Management of difficult cases and endodontic misadventures
- How to avoid litigation in endodontics
- Principles of endodontic retreatment and use of protaper retreatment files
- Management of open apices and use of mineral trioxide aggregate

Hands On:

- Locating MB2
- Warm vertical compaction Obturation technique
- Retreatment and removal of post core
